

# WHAT DIFFERENCE CAN YOU MAKE?

## PART 1: CAUSE, EFFECT AND SOLUTION

Have a look at the first example below that shows what is meant by cause, effect and solution then have a go at completing the second one yourself. Finally, write an issue your class has chosen and start thinking about what causes it, what are the effects and then what possible action you could take.

	<b>CAUSE</b> - The REASON Why something happened	<b>EFFECT</b> - The RESULT What actually happened	<b>POSSIBLE SOLUTIONS</b> - The ACTIONS What could help
	<p>The fridge door was left open...</p>	<p>...so the cat ate all the sausages</p>	<p>Keep the fridge door closed</p> <p>Keep the cat out of the kitchen</p>
			
<p><b>THE ISSUE</b></p>			

## PART 2: SHARE AND DISCUSS

When you come back together with your class, share and discuss about what thing or things you can do to help make a difference to your issue.
