

EARNING AN INCOME

Most people earn money by working and then receiving an income. For adults, this is sometimes also called a salary. You might help out around the house and do chores to earn pocket money and this is also earning an income. Businesses also earn an income when they trade, this means buying and selling goods or services to make money.

JOBS AND SALARIES

List as many kinds of work or jobs that adults do to earn their income? Continue over the page. Then do some research to find out the estimated annual salary for that job. (Annual = per year)
