LEADING IN YOUTH WORK

Voluntary youth work organisations are key players supporting and developing young people across Scotland. During the covid-19 crisis the sector has had to adapt to maintain services and support for young people. It has been a period of constant change and transition and one in which leaders have been required to step up.

Youth Scotland recognises the vital role that you and your organisations play, and will play for the sector's future. On this programme you will work with peers from across Scotland to gain greater confidence and clarity to enable you to progress in your leadership journey.

This programme is delivered as a blend of online participative sessions and self-directed learning. You will work closely with your peers throughout and build a strong supportive network.
