# LEADING CHANGE IN RURAL COMMUNITIES

As the world is changing around us, there are new and different opportunities in the sector that require us to be open to innovation, collaboration and prepared to learn and borrow ways of working from each other.

This programme will support third and public sector leaders to start thinking about how to become more enterprising in their role and approach - both internally and with their community.

Drawing on entrepreneurial theory and approaches, this programme aims to: enhance leaders' understanding of **what** it means to be enterprising, **why** it is important and **how** to take the first steps on the journey.
