

The single most important determinant of the success of any organisation is the quality of its leadership."

Scottish Government's Social Enterprise Strategy.

Leadership happens at all levels in our organisations. The role of leadership is something we can all step into with input and support from peers and colleagues. If you are managing one person or a whole team – you will be having an impact every day on how effectively people and your organisation develop and succeed.

This programme is for people in the enterprising third sector who are at the early stages of leadership and would like to step into their leadership more. It will help you to gain greater self awareness, consider how to motivate and support others and understand more about teams and managing change. The programme will help you to understand the difference between leadership and management and build your confidence to consider what it means to be a leader.

It will take you through different leadership theories, concepts and models as well as introducing you to non-directive techniques to encourage a coaching culture. The focus is very much on the practice of leadership at an early stage of your leadership journey.

What will you gain from the programme?

 Develop greater confidence and clarity to step up as a leader

 Enhance your skills to motivate, engage and lead others

 Learn from your peers and build a community of aspiring leaders in the sector

 Gain the opportunity to complete a qualification in Leadership accredited by Glasgow Caledonian University

Stepping into Leadership

This six day practical programme is designed specifically for people who are working towards positive social impact and change. The programme will provide an opportunity to interact with and gain peer support enabling you to set personal leadership goals for yourself and your learning. Each module will introduce you to a range of tools and approaches which you can apply to your own leadership practice, putting theory into practice.

Delivered with an interactive approach, you will work with and learn from peers to explore a range of practical concepts and approaches as you step into your leadership. The programme helps you to take time out to reflect on what sort of leader you would like to be and gain greater personal insight, different perspectives and self-awareness.

Spread over three months, the programme relies on the group supporting each other to learn and develop.
